Alice Angus, *Community Development Director*,  
City of Orange  
**Planning Commission Members**, City of Orange  
**City Council Members**, City of Orange

I would like to express my concern regarding the proposed General Plan for the City of Orange. I am opposed to the following items and would urge the City to explore alternatives.

- I am opposed to the Plans' proposed increased density for Old Towne, which I feel will negatively impact my quality of life and my property values
- I am opposed to the conversion of Glassell to a 4-lane thoroughfare.
- I am opposed to the conversion of La Veta to a 4-lane thoroughfare.
- I am opposed to the elimination of on-street parking on commercial access streets such as Glassell and Chapman.
- I am opposed to the Plans' encouragement and support to develop up to property lines within the Old Towne mixed-use designation as it DOES NOT "maintain the historic streetscape and building pattern in the Old Towne area."
- I would like to suggest that other options such as relocating density to alternate locations closer to freeways that might result in less burdening of existing Old Towne infrastructure.

I would like to be included on the notification list for any/all upcoming hearings or announcements related to the General Plan revision.

Sincerely,

---
